EDUCATION

Sathyabama Institute of Science and Technology

B.E. Computer Science and Engineering (Artificial Intelligence & Machine Learning) - 8.2 Aug 2023 - 2027

Narayana Junior College

MPC - 8.8

June 2021 - Mar 2023

PROJECTS

Sahaaya – AI Student Companion

Aug 2025

- Developed an AI-powered chatbot designed to support students through both academic and wellness assistance.
- Implemented two dedicated modes: **Study Mode** for learning support and **Wellness Mode** for emotional well-being guidance.
- Integrated Generative AI capabilities using the Groq API to enable natural and context-aware conversations.
- Designed a user-friendly interface focused on accessibility, engagement, and student-centric interaction.
- Envisioned future enhancements including multilingual support, personalized recommendations, reminders, planners, and mobile application deployment.

Scholar AI – Research Intelligence System

Feb 2026 - May 2026

- Research assistant for paper summarization, question answering, and multi-paper comparison using LLM and RAG techniques.
- Developed an intuitive interface that helps students and researchers extract insights efficiently from complex academic content.

SKILLS

- Python
- Java
- Machine Learning
- NLP
- LLMs & RAG
- Prompt Engineering
- Conversational AI
- Chatbot Development
- Generative AI
- HTML & CSS
- React & Tailwind CSS
- MySQL
- GitHub & VS Code

CERTIFICATE

Mastering Generative AI (First Prize Certificate)

- TechKnots Academy LLP

Agentic AI Program (50-Hour Internship Completion Certificate)

- NeubAltics Research Hub
